about

I am an Aspiring Software Engineer, always curious to learn about the new and innovative technologies which are trending at present in the industry.
I am in the Pre-final Year of my B.Tech Degree in VIT-Bhopal, with a CGPA of 8.11. I am currently focused on my skills in C++ and GO-Lang.
I am making a project right now which wil an imitation of a Torrent, which will allow the user to access and store any files for the other people.
